CAREER OBJECTIVE

Motivated and detail-oriented individual with hands-on experience in software development, AI/machine learning projects, and data analysis. Passionate about software quality, test automation, and ensuring reliable and efficient software delivery. Skilled in Python, JavaScript, and web technologies, with a strong understanding of software development lifecycles and Agile Scrum methodologies. Eager to apply analytical and problem-solving skills in a QA Automation role to identify defects, build automated test frameworks, and contribute to delivering high-quality software solutions.

EDUCATION

Bsc(Hons)Computing	2023-Present
Islington College	
London Metropolitan University	
Kamal Marg , Kamalpokhari, Kathmandu	

SLC-Science	
Araniko Awasiya Higher Secondary School	2020-2022
National Examination Board(NEB)	
Biratnagar,Morang	

Secondary Education Examination	2020
St.Mary's School	
National Examination Board(NEB)	
Biratnagar,Morang	

SKILLS

Technical Skills

- Programming Languages: Java, JavaScript, Python
- Web Technologies: HTML, CSS, Servlet, JSP, JDBC
- Databases : MYSQL , Oracle
- QA & Testing: Cypress(Basic), Manual Testing, Functional Testing, Regression Testing, Test Case Design, Bug Reporting, Test Planning
- AI & Machine Learning: Pandas, Scikit-learn, Random Forest, Naive Bayes, Data Preprocessing, Predictive Modeling
- Project Management: Agile and Scrum Methodologies, Sprint Planning, WBS, UML Diagrams, Team Coordination
- Version Control: Git/GitHub
- Computational Tools : Jupyter Notebook

Soft Skills

- Creativity and Innovation
- Strong Communication
- Team Collaboration
- Problem Solving and critical thinking
- Leadership and Adaptability

EXPERIENCE

Frontend Developer Intern: Swift Technology Pvt. Ltd. (September 2025 – December 2025)

- Developed responsive frontend interfaces using React.js.
- Worked on reusable UI components and improved website responsiveness.
- Collaborated with team members during development and testing phases.
- Integrated frontend designs using HTML, CSS, JavaScript, and React.

PROJECTS

Academic Projects

Project Management | *Team Leader*

- Planned and managed a full project lifecycle applying Agile Scrum methodology, including sprint planning, stand-ups, sprint reviews, and retrospectives.
- Designed UML diagrams (Class and Sequence) independently to model system structure and interactions.
- Created and maintained a Work Breakdown Structure (WBS) to organize tasks, set milestones, and track personal progress throughout the project.
- Prepared and managed Scrum artifacts independently including Product Backlog, Sprint Backlog.

Animal Shelter Outcome Prediction System | *Python, Pandas, Scikit-learn, Machine Learning*

Developed an AI-based prediction system to classify animal shelter outcomes using multiple machine learning models including Random Forest, Naive Bayes, and Classification algorithms.

Printer E-Commerce Website | *HTML, CSS, JavaScript*

Built a responsive static site for showcasing and selling printers with responsive UI and mobile-friendly layout.

Event Management System | *HTML, CSS, JavaScript, JSP, Servlets, JDBC*

Developed a dynamic web app with CRUD features, filters, sessions, and styled frontend for events and users.

IoT-Based RFID Smart Door Lock System

An IoT smart door lock using Arduino, MFRC522 RFID, and servo motor that grants access to authorized cards with LED and buzzer feedback, plus automatic locking for enhanced security.

Land Rental Management System | *Python*

Built a Python Land Rental System with rental tracking, dynamic pricing, late return penalties, and auto-generated invoices.

Personal Project

[Animal Rescue and Volunteer Coordination System](#) | *MERN*

Developed and tested a MERN-based Animal Rescue and Volunteer Coordination System with role-based access, real time case tracking, and notifications. Designed and executed 54 test cases, performed API testing with Postman, identified and resolved defects, and validated end-to-end system workflows.

TRAINING AND CERTIFICATIONS

- | | |
|---|-----------|
| • <u>AWS Academy Cloud Foundation</u> | June 2024 |
| • <u>AWS Academy Data Engineering</u> | June 2024 |
| • <u>AWS Academy Machine Learning Foundations</u> | June 2024 |
| • <u>AWS Academy Machine Learning for Natural Language Processing</u> | June 2024 |

AWARDS AND ACHIEVEMENTS

- Attended **DevOps Connect 2025**, focused on CI/CD and automation trends.
- **Finalist** US Mission Spelling Bee Nepal (2020)
- **Student of the year** award (2015)
