

# SOFTWARE TEST REPORT

## **Test Objective**

The objective of this test is to verify the successful signup process of the Authorized Partner application. The test validates user registration, email OTP verification, agency details submission, document upload, and successful redirection to the profile page.

## **Test Scenario**

### **Scenario: Successful User Signup**

Steps tested:

1. Navigate to registration page
2. Accept terms and conditions
3. Enter user information
4. Verify email using OTP
5. Complete agency details
6. Enter business details
7. Upload required documents
8. Submit registration
9. Verify redirection to profile page

## **Test Case**

|                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Signup Flow Testing

|        |        |
|--------|--------|
| Status | Passed |
|--------|--------|

The screenshot shows a registration form with the following elements:

- Header:** TAP THE AUTHORIZED PARTNER logo.
- Navigation:** A link "< Go to Login" at the top left.
- Section Title:** "1. Set up your Account" with a blue underline.
- Instruction:** "Provide your personal details."
- Form Fields:**
  - First Name:** Input field containing "Apar".
  - Last Name:** Input field containing "Gosain".
  - Email Address:** Input field containing "kzofskc@guerrillamailblock.com".
  - Phone Number:** A field with a country code dropdown set to "NP", a plus sign, and the number "9712111351". Below the field is the text "Validating...".
  - Password:** Input field with masked characters "\*\*\*\*\*" and a visibility toggle icon.
  - Confirm Password:** Input field with masked characters "\*\*\*\*\*" and a visibility toggle icon.
- Progress Indicators:** Four green dashed lines are positioned below the Password and Confirm Password fields.
- Next Step:** A blue button labeled "Next" with a circular arrow icon.

Figure 1 Registration form

The screenshot shows a web interface for email verification. At the top right is the logo for 'TAP THE AUTHORIZED PARTNER'. Below it, on the left, is a link '< Go to Login'. The main heading is '1. Set up your Account', which is underlined. Below this is a light gray rounded rectangle containing the verification form. Inside the rectangle, there is a small blue icon of an envelope. The title 'Email Verification code' is in bold. Below it, a message states: 'We sent a 6-digit email verification code to your email. Enter the code to proceed'. The code '638944' is displayed in six individual white boxes with black borders. Below the code boxes is a blue button with a white circular arrow icon and the text 'Verify Code'. At the bottom of the rectangle, there is a link: 'Didn't receive a code? Resend Code in 39s'.

Figure 2 Otp Verification

The screenshot shows the '2. Agency Details' step of a signup flow. At the top, the TAP logo is labeled 'THE AUTHORIZED PARTNER'. A navigation link '< Go to Login' is on the left, and a green success message 'Your account has been created successfully' with a close button is on the right. The section title 'About your Agency' is centered. The 'Name' field contains 'Apar Agency'. The 'Role in Agency' field contains 'Ceo'. A dropdown menu for country selection is open, showing a search bar and a list of countries: France, India, Nepal (selected with a checkmark), New Zealand, Pakistan, Test, United Kingdom, and United States of America. Below the dropdown, the selected 'Nepal' is shown with a close button. At the bottom are 'Back' and 'Next' buttons.

## Negative Testing

### Invalid OTP verification

|                 |                                                                                                                                        |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Test Case Id    | 2                                                                                                                                      |
| Description     | Verify that wrong OTP shows error                                                                                                      |
| Precondition    | User has completed signup form                                                                                                         |
| Steps           | <ul style="list-style-type: none"><li>• Complete personal details form</li><li>• Enter wrong OTP</li><li>• Click verify code</li></ul> |
| Expected Result | Invalid OTP error message should be displayed                                                                                          |
| Actual Result   | The error message was displayed                                                                                                        |
| Test Status     | Passed                                                                                                                                 |

The screenshot displays a multi-step registration process titled "Complete Your Agent Profile in Steps". The steps are: 1. Set up your Account, 2. Agency Details, 3. Professional Experience, and 4. Verification and Preferences. The current step is "Email Verification code", which includes a message: "We sent a 6-digit email verification code to your email. Enter the code to proceed". Below this, there are six input fields for the code, numbered 1 to 6. The first field contains the digit "1". A red error message "Invalid OTP" is displayed below the input fields. A blue "Verify Code" button is at the bottom of the form. A red notification box in the top right corner says "Invalid OTP" with a close button.

|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Case Id    | 3                                                                                                                                               |
| Description     | Verify that already used email for registration cannot be used again                                                                            |
| Precondition    | Email already registered                                                                                                                        |
| Steps           | <ul style="list-style-type: none"><li>• Visit the registration form</li><li>• Enter the already registered email</li><li>• Click Next</li></ul> |
| Expected Result | Error message 'User with this email already exists' should be displayed                                                                         |
| Actual Result   | The error message was displayed                                                                                                                 |
| Test Status     | Passed                                                                                                                                          |

The screenshot displays a registration form titled "Complete Your Agent Profile in Steps". The form is divided into four steps: 1. Set up your Account (active), 2. Agency Details, 3. Professional Experience, and 4. Verification and Preferences. The first step, "Provide your personal details.", includes input fields for First Name (Pritha), Last Name (Thapa), Email Address (payay65711@fishnone.com), and Phone Number (NP +977 9817744569). There are also fields for Password and Confirm Password, both masked with dots. A red error message box in the top right corner states "User with this email already exists!". A blue "Next" button is located at the bottom right of the form.

## Signup Flow Testing

### Password Mismatch

|                 |                                                                                                                       |
|-----------------|-----------------------------------------------------------------------------------------------------------------------|
| Test Case Id    | 4                                                                                                                     |
| Description     | Verify that mismatched password shows error                                                                           |
| Steps           | <ul style="list-style-type: none"><li>• Enter password : Pritha@123</li><li>• Confirm password : Pritha123#</li></ul> |
| Expected Result | Password mismatch error shown                                                                                         |
| Actual Result   | The error message was displayed                                                                                       |
| Test Status     | Passed                                                                                                                |

The screenshot shows a four-step signup process. Step 1, 'Set up your Account', is active. The form asks for personal details: First Name (Pritha), Last Name (Thapa), Email Address (bisac55658@fishnone.com), and Phone Number (NP +977 9812020260). The Password field contains 'Pritha@123' and the Confirm Password field contains 'Pritha123#'. Below the password fields, a red error message states 'Passwords do not match'. Progress bars at the bottom show steps 1 and 2 as completed (green) and steps 3 and 4 as pending (red).

1. Set up your Account    2. Agency Details    3. Professional Experience    4. Verification and Preferences

**Provide your personal details.**

First Name: Pritha    Last Name: Thapa

Email Address: bisac55658@fishnone.com    Phone Number: NP +977 9812020260

Password: .....    Confirm Password: .....

Passwords do not match

### **Personal Reflection**

Working on the automation task website was really useful for me. I used Cypress to automate the signup process, which has four steps to register.

The hardest part was figuring out how to handle the OTP verification step that changes all the time. I looked into ways to do it and found out about Guerrilla Mail and Mailtrap. After checking them out I chose to use Guerrilla Mail because it lets me create email addresses get OTPs and pull them out automatically using its API. This made it possible for me to automate the verification process without having to do it

I also had issues with registering the thing twice so I had to change the phone number every time I ran a test to make sure the tests worked. I even looked into what Cypress can do to take screenshots and videos which helps make the test results clearer and easier to report.

What I learned from this task is how to deal with data that changes, how to connect third party APIs with Cypress and how to make documents for automation tests. Doing this task made me better at solving problems doing research and automating QA tests. I learned a lot, about automation and The Authorized Partner website.
